

REPORT FROM THE HISTORIC CARTER HOUSE SOCIETY

With many new residents, we thought it would be appropriate to share a brief history and the mission of the Historic Carter House Society. The Carter House was formally listed on the National Register of Historic Places in 1979 as an authentic plantation worthy of preservation for its historical significance. We are fortunate enough to live among this unique part of history while enjoying modern day amenities such as David Toms' signature golf course. The Historic Carter House Society's mission today is to preserve the plantation house so that its heritage can be enjoyed. We are responsible for raising funds for this purpose. Today, we'd like to ask you to consider supporting the Carter House by becoming a Member. Dues are just \$40 annually and the funds raised go directly toward restoration projects. For example, this year our attention will be on our exterior shutters which include unique, period hardware. In addition to ongoing maintenance, we'll be focused on some electrical improvements on the property and within the dining

room that will enhance the event space. We ask that you consider this contribution which is completely tax deductible. Secondly, we are a volunteer run organization and we have vacant positions available on our Board as well as open committee positions. Tasks range from coordination of restoration projects to social media / public relations to tours and fundraising events. Our email address is located on the membership form being passed out. We welcome residents to get involved with as much or as little time you can offer. The Carter Plantation house represents more than our neighborhood's namesake. Its presence is a distinctive component that enhances our own real estate values. It is our shared legacy that sets Carter Plantation apart from all others. We invite you to join us to preserve this historic landmark.

Thank you,
Kristin Sharp Anderson
Chairman
Historic Carter House Society
